**Operating System:** Windows

## Projects

### **Azaadi – The Band Website**

Live Link: [www.azaaditheband.com](http://www.azaaditheband.com)

Tech Stack: WordPress, HTML, CSS, JavaScript, Bootstrap

Developed a complete WordPress-based website for the music band Azaadi with custom HTML/CSS/JS enhancements. Created sections such as Band Profile, Events, Gallery, Music Showcase, Media Section, and Contact Page. Optimized images, improved loading speed, and ensured fully responsive design across all devices. Delivered smooth navigation, clean UI, and SEO-friendly structure to strengthen the band's online presence.

### **Sticky Notes App**

**GitHub Link:** <https://ganuchavan8491.github.io/Sticky-Notes/>

Tech Stack: HTML, CSS, JavaScript

Developed a lightweight and user-friendly Sticky Notes web application that allows users to create, edit, and delete notes easily. Implemented a clean UI with smooth interactions for better user experience. Designed the application to manage multiple notes dynamically using JavaScript DOM manipulation. Focused on responsive layout and simple usability to make note-taking fast and efficient.

### **Personal Portfolio Website**

**Live Link:** <https://ganeshchavan.vercel.app/>

**Tech Stack:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS

Developed a modern and responsive personal portfolio website to showcase projects, technical skills, and professional details. Designed a clean UI with smooth navigation and well-structured sections such as About, Skills, Projects, and Contact. Implemented responsive layouts using Tailwind CSS to ensure compatibility across mobile, tablet, and desktop devices. Focused on performance optimization and professional design to create a strong personal branding presence online.
